

Recipe Flow

S: Start by toasting a piece of bread. You can do this in a toaster, toaster oven or regular oven under the broiler. While the bread is toasting remove half an avocado from its shell and mash or slice it. Be careful not to burn the toast!

U: Nonna, what's the best way to cut the avocado since it has the seed in the middle?

S: Spread the smashed avocado or arrange the sliced avocado onto the toast and season with salt & pepper. Should I save this to your favorites?

U: Yes.
